

LANGLEY DENTAL PRACTICE

**If you want...**

**the ultimate in dental  
aesthetics...**

**look no further than <sup>PS</sup>e.max<sup>®</sup>**  
Dental Restorations

**...now available at Langley Dental Practice!**

## Why choose **e.max<sup>®</sup>** crowns and veneers?

**e.max<sup>®</sup>** crowns and veneers are all-ceramic dental restorations which have long lasting aesthetic qualities. They have a very natural and attractive appearance which means that they complement the rest of your teeth.

**e.max<sup>®</sup>** has great translucent properties that go hand in hand with their extra strength and durability.

## What are **e.max<sup>®</sup>** crowns made of?

**e.max<sup>®</sup>** crowns and veneers are made from a single block of lithium disilicate ceramic. **e.max<sup>®</sup>** crowns and veneers are strong with a long lasting but delicate harmonious appearance.

## Advantages of **e.max<sup>®</sup>** restorations

- **Long lasting**
- **A beautiful and natural lifelike appearance**
- **Stronger and more fracture resistant than conventional dental ceramic**
- **Low wear on any remaining natural teeth**
- **No unsightly silver metal margins**

**Please ask your dentist or reception for details**
